

Auril

Auril is the goddess of **winter** in the [pantheon](#) recognized across [Norvostra](#).

Worship and Meaning

Auril is commonly known as **the Frostmaiden**. The faith's traditional symbol is **Six-pointed snowflake**. In traditional religious classification, Auril is **Neutral Evil**.

Auril embodies winter, bitter cold, and the merciless power of the frozen world. She is feared as much as worshiped, especially by people who live at the mercy of hard winters, mountain storms, and failing harvests.
